

Assignment – 4

Assignment Date	21-OCT-2022
Team ID	PNT2022TMID50562
Student Name	Nafil Arzzam
Student Roll Number	952819104032
Maximum Marks	2 Marks

Questions:

1. Pull an image from docker hub and run it in docker playground.

The image shows two screenshots. The top screenshot is of the Docker Hub page for the repository `uifd/ui-for-docker`. It shows the repository details, including the description: "A web interface for Docker, formerly known as DockerUI. Deprecated, use Portainer for new features." and the Docker Pull Command: `docker pull uifd/ui-for-docker`.

The bottom screenshot is of the Docker Playground interface. It shows a terminal window where the following commands are executed:

```
# This is a sandbox environment. Using personal credentials
# is HIGHLY discouraged. Any consequences of doing so are
# completely the user's responsibilities.
#
# The PWD team.
#####

NAME	TAG	IMAGE ID	CREATED	SIZE
job-portal-main	latest	1756719486df	less than a minute ago	1.08 GB

RAM 2.53GB CPU 1.56% Connected to Hub v4.13.0

3. Create an IBM container registry and deploy helloworld app or jobportalapp.

The image shows two screenshots. The top screenshot is the 'UI For Docker' web interface. It has a navigation bar with tabs: Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info. The main content area displays 'UI For Docker' with the subtitle 'The UI for Docker container engine' and a 'Learn more' button. Below this, it shows 'Running Containers' with one container named 'beautiful_goldwasser' and a 'Status' section with a green progress indicator.

The bottom screenshot is a terminal window with a sidebar on the left showing a digital clock '03:42:30', a 'CLOSE SESSION' button, and an 'Instances' section with a '+ ADD NEW INSTANCE' button. The main terminal area shows the command prompt for a container named 'cd9an2u3_cd9av060qau0008hbjs0'. The IP address is '192.168.0.13'. The terminal output shows the following commands and results:

```
# This is a sandbox environment. Using personal credentials #
# is HIGHLY! discouraged. Any consequences of doing so are #
# completely the user's responsibilities. #
# The FWD team. #
